1. THE INSTITUTE

1.1 HISTORICAL BACKGROUND

National Institute of Technology Karnataka (NITK) Surathkal, formerly known as Karnataka Regional Engineering College (KREC) Surathkal, was established in the year 1960 at Srinivasnagar, Mangalore, Karnataka State. Sri U. Srinivasa Mallya, a visionary and a philanthropist was instrumental in the establishment of this Institute and hence the campus is named after him as “Srinivasnagar”. KREC made a small yet significant beginning with 3 Departments offering BE programs in Civil, Mechanical and Electrical Engineering. Since then KREC grew from strength to strength and set unprecedented records in the field of technical education in the country. Initially the College was affiliated to the University of Mysore but in 1980 the affiliation was transferred to the Mangalore University. With every passing batch of students who went on to conquer unexplored domains in the service of humanity, the stature of KREC grew and the world recognized and applauded. So much so, ‘Surathkal’ is synonymous with high quality engineering education. In 2002, the Government of India decided to grant full autonomy and accordingly the College was elevated to the status of Deemed University and renamed as the National Institute of Technology Karnataka. Subsequently, the National Institute of Technology Act, 2007 was enacted by the Parliament of India to declare India’s National Institutes of Technology as Institutes of National Importance. The Act received the assent of the President of India on 5th June, 2007 and became effective from August 15, 2007. The Institute is governed by the rules and statutes of the NIT Act.

The Institute has established itself as a premier center engaged in imparting quality technological education and providing support to research and development activities. The Institute has a long tradition of research for several decades in both traditional and modern areas of engineering and sciences in all departments. The Institute has been actively involved in applied research while

Identifying and resolving problems faced by the society in several areas. NITK attracts students from all over the country and abroad. NITK graduates are sought after by top industries/companies and the Institute has been rated as one of the best Institutions in the country with regard to student placements. Many of its alumni occupy coveted positions both in India and abroad and are a source of pride and inspiration to the Institute. NITK is consistently rated among the top engineering and technological institutes in India. Today, the Institute offers nine B. Tech programmes, 31 Post Graduate programmes and Doctoral programmes in all its fourteen Departments and is making significant advances in R&D and outreach activities too.

1.2 LOCATION

The Institute is located at Srinivasnagar, Surathkal in the Dakshina Kannada District of Karnataka State, 21 km. North of Mangalore city on either side of NH.66 which cuts across the campus. 7.1 EDUCATION SYSTEM

The normal duration of programmes leading to B.Tech degree in Engineering is eight semesters. For full time M.Tech. Programmes, the duration of study is a minimum of four semesters and a maximum of four years. For Internal/external registrants, the duration shall be a minimum of five semesters and maximum of five years. For M.Tech. of study shall be a minimum of four by Research program for full-time students, the duration semesters and a maximum of four years. For Internal/External Registrants, the duration will be a minimum of five semesters and a maximum of five years. For Master of Science, programme the duration of study shall be a minimum of four semesters and a maximum of four years. For Master of Computer Application (MCA) the duration of study shall be a minimum of six semesters and a maximum of six years. For Master of Business Administration (MBA), the duration of study is a minimum of four semesters and a maximum of four years. For Doctoral Programmes (Ph.D.) the duration of study is a minimum of two years and maximum of seven years for all categories of research scholars.

Each academic year is divided into two semesters. A semester that is typically from August to Mid- December is called the ODD SEMESTER, and the one that is from January to Mid-May is called EVEN SEMESTER.

The medium of instruction, examination and project work is English only.

7.2 EXAMINATION & EVALUATION PROCEDURE

The examination and evaluation work of all the B.Tech./M.Tech./MCA/MSc/MBA students and Ph.D./M.Tech by Research candidates were carried out by the respective Faculty Members in their concerned Departments itself as per the regulations approved by the Senate of the Institute. The Grades obtained by each student with details of attendance in each course are submitted to the Examination/Evaluation Section for processing their Grade Cards as per the regulations of the Institute. The results are declared and published on the website of the Institute in time and Grade Cards were issued to all eligible students.

11.0 FACILITIES/AMENITIES

11.1 Hostels

The Institute reopened on 17-07-2019 as per Academic Calendar for the year 2019-2020.

There are 11 messes operating in various hostel blocks to cater the needs of inmates. Out of which one vegetarian and one non-vegetarian messes are running in girl's hostel and 5 vegetarian messes and four non-vegetarian messes are running in boy's hostel. All the messes are provided with necessary infrastructure to cater to the different food habits of the students drawn from various parts of the country.

Total number of messes

All messes are managed by Hostel Administrative, with active participation of the Student mess managers for preparation of the menu and other issues. Monthly mess bill accounts were audited by verifying the mess cards, stock sheets, purchase registers, mess membership issue register, mess bill calculation registers, petty cash book with vouchers and other records connected with monthly mess bill. Rationalization method is adopted to avoid the rate difference problem of various messes.

Total mess membership varies in every month. Out of the 11 messes Vindhya (III Hostel), Satpura (IV Hostel) mess, Nilgiri (V Hostel) mess, Thrishul (VIII Hostel) mess, Pushpagiri (PG Hostel) mess, Mega Hostel Mess (Chaitanya) and Girls hostel messes are managed by the contractors.

Mess Concession is offered to students (Hostellers), who need financial assistance to continue their studies in the Institute during Odd and Even semester. The fund raised by contribution from the hostellers i.e. ₹10/- per semester along with hostel mess fees. The concessions are granted based on the information furnished by the individual applicants in the prescribed applications. The mess concession grantee must be regular in attendance and show good performance in academics. The amount granted above will be credited to the mess bill account of the respective student, and is not be paid cash.

Several festivals like Holi, Diwali and Ganesh Chaturthi celebrated by hostellers, through the fund is raised by contribution i.e. ₹40/- from the hostellers.

During the year under report, Medical Relief to the tune of ₹ **3,03,373/-** has been sanctioned to students of the hostel blocks as per the recommendation of the Block Warden and Institute Resident Medical Officers, for their hospitalization in nearby Surathkal/Mangalore hospitals for treatment. This amount is met out of the fund created under “Self Sustaining

Medicare Scheme” which is created by collecting ₹35/- per student per semester.

Students advisory Committee is formed in each block for effective- interaction between the Wardens and students. To improve the accounting process, computerization of accounts in the hostel has already been initiated. To receive feedbacks related to messes and maintenance issues, online complaint registration system is initiated. All the accounts of the hostels are duly audited by a Chartered Accountant.

Laundry Facility established in NITK Surathkal Hostels, Mega Tower II (Himalaya) for benefit of the students. Total Grant ₹24 Lakh for the Project entitled “Laundry Facility in the Hostels of NITK Surathkal”, granted by Karnataka State Minerals Corporation Limited, Bengaluru.

11.2 CENTRAL COMPUTER CENTER

CCC has contributed in designing, building and maintaining an IT infrastructure for the Institute adequate to the academic needs, by providing quality IT services to support teaching, learning, research and innovations. CCC maintains the campus network backbone connectivity and internet connections on 24x7 basis. The CCC occupies the building opposite to the Silver Jubilee Auditorium. CCC was established in 1995 as a service providing/supporting facility that augments to the computing facilities in the teaching departments.

CCC is currently headed by Dr Ramesh Kini (Dept. of ECE). CCC has the following permanent staff associated to it. One Systems Manager, One Senior Scientific Officer, Two Technical Officers, Two Assistant Engineers (SG1), One Technician (SGII) and One Junior Assistant. CCC also has an Office Clerk, 2 Helpers, One Sweeper and One House Keeper working on contract basis.

Chairman, CCC seeks the guidance of the CCA Committee in important decisions.

NITK has a Campus wide LAN reaching academic buildings, residences and hostel rooms through wired and wireless networks. The campus backbone services are provided with about 20 kms of 12 core OFC using 1 Gbps and 10 Gbps backbone to the different buildings and broad band to the residences. Departments, Residences (through the broadband), Directorate (and administrative net), Guest houses and Hostels are individually connected to the core switch. The hostel networks are integrated into the academic network of NITK sharing the Internet bandwidth of the Institute.

The first stage of the campus network was done in 1999 and the second

stage of expansion was done in 2006 with the TEQIP funds. The Third Stage including Core Network Expansion and the Campus WiFi is completed in 2016 at a total cost of about Rs 6.78 crores. The expanded network including the Core Switches, Firewall, Backbone switches and the Campus Wi-Fi equipments are under warranty and maintenance of BSNL for 5 years.

The Wi-Fi network is provided as an extension of the wired networks in the different buildings. The WiFi expansion Phase 1 was carried out with 744 Ruckus R500 Indoor access points, 40 Ruckus T300 Outdoor access points, 5 Ruckus H500 wall switches, 89 Netgear 24 port 10/100/1000Mbps PoE switch with 4 SFP ports and other active and passive network components. Subsequent WiFi expansion (Phase 2) to the new CSE building and LHC-C were carried out with 97 Ruckus R510 Indoor Access Points, 4 Ruckus T300 Outdoor Access Points and 11 PoE switches.

NITK has 5Gbps Internet bandwidth - 2Gbps from National Knowledge Network and 4 Gbps from BSNL. The total cost (recurring) for the 4Gbps bandwidth and broadband facility to the campus is Rs.82,46,000/-

The NITK Data centre housed in the CCC Ground Floor acts as an integration hub of OFC/backbone. It houses Internet connections to BSNL & NKN, associated networking equipments and sufficient hardware to handle the critical backbone network services.

Main servers are connected to the data centre network. Critical services are accessible from inside and outside the network. CCC Uses Virtualisation with Blade Servers with VMWare, Dell Servers with Proxmox virtualisation environment / Ubuntu System containerisation environment.

NITK Website updates are entrusted with the CCC apart from the webserver maintenance. The domains of NITK

(*nitk.ac.in* and *nitk.edu.in*) are also controlled by CCC.

CCC has coordinated the upgrade of Matlab license based on Total Academic Head Count. National Institute of Technology Karnataka Surathkal now offers a campus-wide license to MATLAB, Simulink, and companion products. All faculty, researchers, and students are eligible to download and install these products on their university computers as well as their personally-owned computers.

Apart from these, the Ground Floor of CCC houses (i) The HPC cluster being installed and commissioned and (ii) The 150 Node Skill Development Centre established by the NITK Alumni. The first floor hall of CCC with about 90 Desktop computers is available for general purpose computing & browsing. The computers of CCC are used to support First year Computational Practice Labs, General Purpose Learning & Internet access, On-Line tests (Training & Placement) & various co-curricular and other student activities.

The CCC Ground floor will house the new Data Centre where the server space will be provided for the entire Institute. The Skill Development Centre is moved to the second floor of CCC.

The network infrastructure facility management of NITK is outsourced. Comprehensive onsite AMC is available for the Network switches. There is a helpdesk number 0824 2473085. There is also a rate contract with the firm to facilitate any immediate need of network alterations within a limit. The process of identifying the new Facility Manager is underway.

The facility has a 200KVA Diesel generator that was established in 1994 and two 20KVA, one 15 KVA online UPS systems and one 10 KVA UPS, procured later for providing backup power during the changeover. One 15 KVA UPS systems provide the power

backup to the CCC LAN and one 5 KVA Online UPS. This is being reassessed to accommodate the needs of the HPC Cluster, Skill Developed Centre and the New devices of the Data Centre.

TEQIP-III project awarded to the institute has been successful in implementing diversified activities as laid under the three heads, namely, procurement, academic and operating cost. Until the last quarter (April-June 2020) funds utilised under various heads are Rs.156 lacs for procurement, Rs.227 lacs for academic activities, and 0.470 lacs for operating cost. The project has benefitted as many as 12 faculty in publication of their research articles in peer reviewed journals plus 35 faculty have attended workshop/conference, plus 12 faculty have organised FDPs/Workshops/STTPs/Conferences; 98 students inclusive of UG, PG and Ph.D. students have been supported to attend the conference and presented research papers in conferences; and 10 non-teaching staff have attended knowledge/skill development programmes. 84 UG students were provided financial support for their internship at industry and IITs/IISc/R and D organisations. Students appearing for GATE 2020 have been provided learning material and training. The project has also supported Seminars/Training/Skill development programmes for the UG and PG students in the direction to enhance their employability skills. Under the equity action plan (EAP), seminars, training programs and workshops were organised for the UG and PG students for improving employability skills, communication skills, and over all personality development. Major responsibility assigned to the TEQIP-III project institutes under 1.3 component is the Mentoring activity /Twinning system. NITK Surathkal has been mentoring Engineering College (EC), Jhalawar (Formerly Government Engineering College, Jhalawar), Rajasthan since the inception of the project in 2017. Accordingly, there has been a series of academic activities organised by

faculty of NITK benefiting the faculty and UG students of the mentee institute. During the last three academic years nearly five visits have taken place between the faculty of EC Jhalawar to NITK and vice versa. From NITK Surathkal nearly, 15 to 20 faculty from NITK visit EC Jhalawar for about a week. Faculty from IT, CSE, EEE, ECE, ME, CV, Physics, and Chemistry have been the major contributors. During this academic year the faculty of NITK interacted with the students and faculty of EC Jhalawar. Faculty of NITK have engaged classes to UG students of EC Jhalawar based on Rajasthan Technical University (RTU) Kota curriculum, engaged in practical classes as well. Few focused and theme based training programmes, motivational talks, seminars have also been organised with the objective that their technical, soft skills, cognitive and non-cognitive skills be enhanced. EC Jhalawar faculty were assisted by NITK Faculty to successfully apply for NBA accreditation, accordingly NITK faculty of various departments have helped EC Jhalawar to prepare their e-SAR. Workshops on Pedagogy, OBE, Effective Governance practices, and theme based workshops/seminars were organised for the benefit of the faculty of EC Jhalawar. NITK Surathkal has provided UG students of EC Jhalawar with the opportunity of undergoing internship at NITK for about 30 to 45 days. During the academic year 2017-18 and 2018-2019 nearly 154 and 89 students have visited NITK for their internship with a focus to help improve knowledge in the courses relevant to RTU Kota curriculum. Faculty of NITK Surathkal were in the forefront to help EC Jhalawar to take up joint research activity which has resulted in two joint research projects being sanctioned for EC Jhalawar under the TEQIP Collaboration Research Scheme.

Brief Report:

In commemoration of 60 years of fruitful existence, NITK is celebrating its Diamond Jubilee during the period August 2019 – August 2020. It was planned to start the Diamond Jubilee Celebrations on August 06, 2019 which coincides with the 60th Foundation Day of the Institute. This celebration of 60th year of glorious existence is mainly due to outstanding

performance of our Alumni all over the globe and it was to rejoice this success through active participation of beloved Alumni through various events. Given the importance, we attach to the alumni, it was the collective desire of Team-NITK to invite distinguished alumni as an Institute Guest for the inaugural function of Diamond Jubilee Celebrations. The first Alumni meet was specially scheduled to felicitate “Distinguished Alumnus” graduated during 1965 to 1979 (decade and a half long). The skill gap analysis would be made sector-wise, need of specific skill would be identified and suitable training would be provided on case by case basis.

2. Short Term Training Program:

Here, the Institute would conduct short term Training Program for 3 weeks to the emerging entrepreneurs, nearby engineering college students and faculty members. The program also aims at strengthening the knowledge in the area of IPR to

MSMEs, entrepreneurs and academicians in particular

3. Entrepreneurship Development:

Here, the primary focus of the center is to encourage and identify students and faculty members and people in the rural areas with specific ideas and handhold them towards setting up enterprises. Need based training would be planned on a weekly basis to the emerging entrepreneurs. End to end mentoring support in various areas based on their specific needs (starting from licensing to marketing the finished product) would be provided. In addition, entrepreneurship awareness camps would be conducted in the villages of Dakshina Kannada district to encourage towards entrepreneurship.

These financial statements are the responsibility of the Institute's management. Our responsibility is to express an opinion on these financial statements based on our audit.

1. Schedule 5 – Fixed Assets & Depreciation and Schedule 24 – Significant Accounting Policies

Change in Accounting Policy in respect of depreciation accounting

Audit Scrutiny of Schedule 24 for the year 2019-20 revealed that the Institute had changed the method of depreciation from written down value method and adopted the straight line method for depreciation of assets under Schedule 5 from the year 2019-20. In the absence of the details of legacy of each Fixed Asset arrived with relevance to residual value, the residual shelf life for calculating depreciation of the current year with Straight Line Method and the impact of the value of the asset vis-à-vis depreciation as on 31st March 2020 could not be ensured.

The impact due to the change in Accounting Policy has also not been quantified.

1.1 Schedule 25 – Contingent Liabilities and Notes on Accounts

**2 – Fixed Assets – 2.1 Assets purchased out of IRG – Rs.785.58 lakh
Overstatement of transfer to Corpus/Capital Fund – Rs.99.82 lakh.**

A reference is invited to the aforesaid Note wherein it is stated that additions in the year to fixed assets include Rs.785.59 lakh incurred under the head Internal Revenue Generation (IRG). However, as per the details furnished by the Institute the same amounts to Rs.685.76 lakh. The difference of Rs.99.82 lakh was on account of inclusion of operating/non-plan expenditure under the said head which is not correct. Consequently, the depiction of Rs.785.59 lakh under Schedule 22 Other Expenses : Transfer of Corpus/Capital Fund to the extent of capital Expenses from IRG is also not correct as the aforesaid operating/non-plan expenditure should have been depicted separately.

The members of the Senate, all my colleagues – both faculty and non-teaching members have been very supportive of all the new initiatives being contemplated and implemented. I record my appreciation for the students of the outgoing batch for their disciplined behaviour and keen participation in the activities of the Institute. Again, on behalf of all the members of Team-NITK, I wish to place on record, our gratitude to the MHRD-GOI, Govt. of Karnataka and other agencies for their constant support and encouragement.
